Instructions

STEP 1: Clean skin then remove backing sheet from stencil

STEP 2: Place stencil on skin & carefully peel back top layer

STEP 3: Apply thin layer of glue - wait for glue to go clear & tacky

STEP 4: Use small or medium brush to apply glitter to the glued area of the stencil

STEP 5: Use large brush to remove excess glitter

STEP 6: Carefully remove stencil from skin

Useful Tips

- Surgical spirits can be used to clean the skin, clean brushes & remove any mistakes made on the skin. It can be purchased from any pharmacy - or if you wish to buy in bulk you can buy from any salon wholesalers.
- If the body adhesive becomes thick you can water it down using an eye drop of water (do not use too much).
- The body adhesive is to be kept at room temperature, avoid extreme cold or hot temperatures.
